

Smart Spec

A Complimentary Solution to Easily Locate Information in Project Specifications

Make Your Project Spec Work for You

Egnyte has a long history of helping AEC firms improve productivity by making it easy to access project files anywhere and from any device.

Egnyte designed Smart Spec to help reduce rework in the field, and develop more accurate bids in the office, by automatically parsing project specifications so you can find the information you need quickly.

Designed to take any project specification and turn it into a smart document, once a spec is uploaded you will be provided a unique URL where you can:

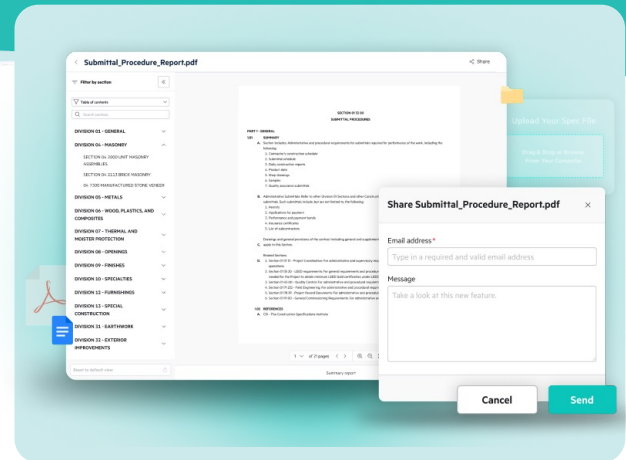

- Quickly jump to any section of the spec through the hyperlinked table of contents
- Reference dynamic lists of submittals, products and warranty requirements
- Easily share the Smart Spec with your team

Purpose-built for AEC practitioners, Smart Spec helps:

- Reduce the amount of time spent wading through hundreds of pages to find the right information
- Eliminate costly mistakes due overlooked warranties or product details
- Reduce rework on the jobsite by making it easy to find and reference procedures from any device

To register for your complimentary Smart Spec go to:
